

E▶Basic Category

Superior Slide

Through research and development Etonic had added unique technologies which enable these entry level shoes to slide better than any of the competition's:

- Concave outsole allows less surface contact
- Outsole rubber is *textured* to allow better slide on synthetic approaches and requires little to no break in time
- Perfect Slide™ PS8 sole allows for more slide
- Elastic tongue straps hold foot comfortably in place

Other styles available, see catalog for complete line
